MO RIDES - Central Missouri is a Mobility Management Project that helps arrange transportation throughout our eight county region.

MO RIDES - Central Missouri increases provider coordination to enhance efficiency, improve access and reduce costs for providers and riders.

MO RIDES - Central Missouri is committed to forming new partnerships with regional agencies, employers and other stakeholders to provide more transportation choices in Central Missouri.

What is Mobility Management?

Mobility Management is a strategic approach to service coordination and customer service that is becoming a worldwide trend in the public transportation sector. No two programs are alike. Each program is designed with its unique community needs in mind. Common elements include the following:

- A focus on moving people, not vehicles
- The discreet needs of the individual consumer
- Service that extends through the ENTIRE trip
- Making improvements to the effectiveness, efficiency and quality of services
 - Improving information about these services
- Innovation and changing of usual business practices

MO RIDES - Central Missouri is a project of Central Missouri Community Action in partnership with grant manager, Mid-Missouri Regional Planning Commission.
